

THE NEW CROSLEY 52-SPECIAL

\$35

*Similar to
the well-known
Crosley 52 at \$30
in handsome large
cabinet with
Sloping Panel*

The tremendous demand for the Crosley three tube 52 has encouraged us to offer this circuit in a new, attractive cabinet with sloping panel, the Crosley 52 Special. This Cabinet is large enough to hold all dry cell batteries. It thus becomes self-contained, a beautiful piece of furniture which can take its place in the living rooms of the most discriminating. The sloping panel makes operation easier and greatly adds to the appearance of the set.

Of course, the popular Crosley 52 will be continued. It has given uniformly satisfactory loud speaker service in all parts of the country. Continual coast to coast reception and even foreign stations on the loud speaker have been frequently reported. You can purchase a Crosley 52 or 52 Special from most any good dealer. All Crosley Radios are licensed under Armstrong Regenerative U. S. Patent 1,113,149. Write for Catalog.

CROSLEY AGAIN LOWERS PRICES

Big Reduction in Famous Trirdyn and other Radios

CROSLEY 50

\$14.50

A one-tube radio that easily brings in distance with phones.

CROSLEY 51

\$18.50

The biggest selling radio in the world

CROSLEY 51 Portable

Now \$23.50

The two-tube utility radio. Let your dealer hook it up in his store.

CROSLEY 52

\$30

A three-tube regenerative set that gets distance with the loud speaker. Becoming more popular every day.

CROSLEY TRIODYN

Now \$50

The biggest selling high-grade radio on the market. Distant loud speaker reception under all conditions.

The biggest selling high grade receiver on the market—the Crosley Trirdyn—reduced from \$65 to \$50.

The Trirdyn Special—the beautiful Model with cabinet to house batteries—formerly \$75, now \$60.

The Crosley 51-P, a tremendous seller at \$25, reduced to \$23.50.

We firmly believe that these sets, together with the other Crosley Radios, represent the biggest values ever offered.

Crosley Radios Justly Popular

Only the less expensive Crosley Radios have exceeded the Trirdyn in sales. This deserved popularity of the entire Crosley line is the result of extraordinary performance at a very low price.

Crosley Radios cost less originally, use fewer tubes and consume much less battery current. At the same time they give results not equalled by receivers costing a great deal more and using two or three additional tubes.

The unique Trirdyn circuit—a combination of Armstrong Regeneration, Radio Frequency Amplification and Reflexed Audio Amplification—has proven beyond a doubt that the features of selectivity, volume and ease of operation can be obtained with three tubes better than heretofore has been possible with five or even six.

Hundreds of voluntary letters have come to us, telling of the unparalleled foreign reception during international test week with Trirdyns and all other Crosley Radios; even the little one-tube Crosley 50 at only \$14.50.

It is this continued remarkable performance that has created such a tremendous demand for Crosley Radios. And it is this great popularity that now allows us to decrease our production costs and pass this large saving along to you.

New Crosley Models

In order to allow even a greater selection, three new Crosley Radios have been added to our extensive line. Taking its place with the well known Crosley 50 and Crosley 50-P is the leatherette covered, one-tube 50 Portable, a utility set in which the dealer can quickly make the necessary connections and allow you to carry it home complete.

The New Crosley 51 Special, a two-tube receiver similar to the Model 51, is housed in a cabinet large enough to hold the necessary batteries and has a sloping panel.

Similar to the Crosley 52, but with sloping panel and cabinet to house the batteries is the new Crosley 52 Special.

These additional receivers make the Crosley line absolutely complete—A radio for all tastes and every pocketbook. See illustrations for prices.

No matter what appeals to you most in a radio, you will find that point outstanding in a Crosley.

Most good dealers handle Crosley Radios.

You Will Make No Mistake in Buying One.

All Crosley Receivers contain the famous Armstrong Regenerative circuit, and are licensed under the Armstrong U. S. Patent No. 1,113,149

As is customary prices shown do not include tubes, phones, loud speakers or batteries

Prices West of Rockies—Add 10%

©

From a small beginning three and a half years ago, Crosley Radio has grown until it now produces more sets than any other concern in the world. The present production—nearly 5000 per day—is probably from two to three times as great as that of any other radio manufacturer.

Crosley owns and operates the new super power WLW Broadcasting Station located at Harrison, Ohio, remotely controlled from studios in one of three large Crosley owned manufacturing plants in Cincinnati.

3 Tubes do the work of 5

In a CROSLEY Trirdyn

CROSLEY 50P

\$16

The new leatherette covered one-tube utility set. Will give the same results as the Crosley 50.

CROSLEY 51 Special

\$23.50

Same as 51 in new sloping panelled cabinet which houses all necessary batteries.

CROSLEY 52 Special

\$35

The Crosley 52 in new cabinet to house batteries. Has sloping panel.

CROSLEY TRIODYN Special

Now \$60

Same as the Trirdyn in beautifully finished large cabinet to hold the batteries.

Still Better

New Crosley Radio Receivers

THAT Crosley Radio Receivers have given complete satisfaction in the past is evidenced by the fact that, during the last twelve months, The Crosley Radio Corporation produced more receiving sets than any manufacturer in the world. That the new line of Crosley instruments, illustrated herewith, will give even better service is assured by the exhaustive tests to which each model has been subjected both in our laboratories and in actual use under all weather conditions. Each Crosley Model is designed to give the utmost efficiency at the lowest cost.

Before you purchase a radio receiver listen in on a Crosley. Compare its performance with any other instrument on the market. We know then that you will choose a Crosley.

CROSLEY

Better-Cost Less
Radio Products

All Crosley Regenerative Receivers licensed
under Armstrong U. S. Patent, 1,113,149

The Crosley Radio Corporation owns and
operates broadcasting station WLW

The Wonder of Radio!

Crosley owns and operates station WLW, Cincinnati, the first remotely controlled super-power broadcasting station.

CROSLEY 50

One tube set

\$14⁵⁰

Add 10 per cent west of Rocky Mountains

2-Tube Crosley 51

Same as wonderful Crosley 50 with additional tube amplifier. Local and nearby stations on loud-speaker always and distance up to 1500 miles under average conditions. Much greater range with head phones.

Special Sloping Front

2-Tube Crosley 51

Same as Model 51, with cabinet holding all dry A and B batteries \$23.50.

2-Tube Crosley 51 Portable

The Crosley 51 in a black leatherette case, with nickel trimmings. Space for batteries. \$23.50.

Crosley Musicone

A marvelous new development of loud-speaking principles. Diffusion of sound creates perfect reproduction of all tones. \$17.50.

3-Tube Crosley 52

A larger set for those who want greater reception range on the loud-speaker. Operates on three tubes, using wet or dry batteries. Consistent loud-speaker range 1500 miles or more.

Special Sloping Front

3-Tube Crosley 52

Cabinet contains dry A and B batteries. Same efficient detection and reception as regular 52. \$35.

3-Tube Crosley 52 Portable

Same as other 52 models, but in a black leatherette case. Easily carried. All batteries inside. \$35.

Prices quoted above do not include accessories. Add 10 per cent west of Rocky Mountains.

This is the latest refinement of the marvelous set that enabled Leonard Weeks of Minot, N. D. to catch the messages of MacMillan's North Pole expedition when sets costing ten times as much failed.

In this set Crosley has developed the famous Armstrong regenerative circuit. This circuit does with one tube what it takes three tubes to do in others.

This set will bring in stations from all over the country. It is simple and easy to operate. With accessories the total cost should be under \$25.00. Crosley keeps the cost down with his "radio-for-the-millions" ideas in production.

Recent letters from enthused owners of the Crosley one-tube 50 report good reception at these distances:

Mrs. J. E. Martin at East Palestine, O. hears KGO at Oakland, Calif.
O. W. Bryant at Sunset, Texas gets WLW at Cincinnati, KDKA at Pittsburgh and Hollywood, Calif.
L. R. Pratt, Hammond, Ind. hears 5NO, New Castle, England.
Eugene Barnhouse at Brookfield, Mo., hears Montreal and Winnipeg, Canada.
Paul J. Hall at Osceola, Neb. hears 2LO at London, England.

Crosley manufactures receiving sets which are licensed under Armstrong U. S. Patent No. 1,113,149, and priced from \$14.50 to \$65, without accessories.

The Crosley Radio Corporation

Powel Crosley, Jr., President

815 Sassafras Street, Cincinnati

The wonderful performance of these CROSLEY Radios will be duplicated this year—and with these New Prices they should be Radio's best value!

Crosley 2-Tube 51 Regular

This efficient little set uses any make of tubes. Nearby stations on loud speaker, long range on headphones.

Now \$14.75 was \$18.50

Crosley 3-Tube 52 Regular

For a less expensive 3-tube set the Crosley 52 Regular cannot be surpassed at the new low price.

Now \$25 was \$30

Crosley Super-Trirdyn Regular

In the Super-Trirdyn, 3 tubes do the work of 5. Matchless performance. Beautifully finished solid mahogany cabinet.

These prices do not include accessories. Add 10% to all prices West of the Rockies

CROSLEY

Radio Apparatus

BETTER—COSTS LESS

The unit outfits shown on this page are priced without tube or batteries

Crosley Crystal Receiver No. 1

This is an extremely efficient crystal detector outfit combining tapped inductance and variable condenser for tuning. Manufactured under the Pickard patents. Furnished complete as shown, with pair of standard double head phones, antenna, insulators, molded rubber dial, formica panel, Adam brown mahogany finish cabinet, complete instructions, etc. (Manufactured under Pickard patents).

Price.....\$25.00

The Crosley Crystal Receiving Outfit No. 1 includes phones and antenna which are not included with the other outfits

Harko Senior No.5

Consists of tuning element and audion detector unit mounted in neat cabinet, Adam brown mahogany finish, and many refinements over the original Harko Senior models, that have made history for themselves in the radio field.

Through large production the price is only.....\$20.00

Crosley Receiver No. 6

This unit in effect combines the Harko Senior and R.F.T.A. unit. Used alone can be recommended highly to get

everything that is going up to several hundred miles in the way of broadcasting programmes, code, etc. It has a range from 200 to 600 meters, and will give from six to ten times the volume of sound that the Harko Senior alone will give; it brings in stations loud and clear that would otherwise be inaudible, and at the same time is non-regenerative. It requires one amplifier and one detector tube. Price....\$30.00

Crosley Model No. X

Is a combination tuning element, radio frequency tuned amplifier, audion detector and two-stage audio frequency amplifier, all mounted neatly in one cabinet, simple and easy to tune, has wonderful range and volume of sound. Price.....\$55.00

Model No. XV

This cabinet is equipped with the model X panel, the same four-tube outfit, mounted in a special cabinet with amplifying horn incorporated therein, and can be used with head phones or single loud speaking receiver, such as the Baldwin type "C." Price of this four tube outfit is.....\$70.00.

Crosley Audion Detector Unit

This unit is designed to work efficiently with practically any type of tuner, and consists of socket, rheostat, grid leak and condenser, completely wired and mounted on formica panel, assembled in Adam brown mahogany finish cabinet, of a size to match up with the Crosley Crystal Receiver No. 1.

Price, complete as shown, without tube, batteries or phones.....\$7.50

Crosley R. F. T. A. Unit

The CROSLEY RADIO FREQUENCY TUNED AMPLIFIER UNIT, R.F.T.A. for short, is described in detail elsewhere in this advertisement. It can be combined with the Harko Senior, adding one stage of tuned radio frequency. This greatly increases the range and efficiency of the Harko Senior. Price is.....\$15.00

Crosley Two-Stage Audio Frequency Amplifier

This unit has been sold in large quantities for use with any type of audion detector receiver, and can be used in many combinations with Crosley or other apparatus. It amplifies signals approximately one hundred times, loud enough to be heard all over the room, in connection with any good tuner and audion detector.

Price.....\$25.00

Crosley Model No. XX

This is the same four-tube panel as is used in model X and XV, and is complete in a floor cabinet, as shown in the illustration. In the cabinet is room for storage battery. It also is equipped with amplifying horn for use with loud speaking receiver.

Price.....\$100.00

The CROSLEY MANUFACTURING CO.
CINCINNATI, O.

CROSLEY

Radio Apparatus

BETTER—COSTS LESS

This page illustrates the flexibility of the small unit idea, and the combinations that can be built up with Crosley apparatus.

This illustration shows how it is possible to start with a Crosley Crystal Receiver No. 1, and add the Audion Detector Unit at a later time, making in effect the Harko Senior.

This shows how the R. F. T. A. can be added. The combination shown in the second illustration is equivalent to the Crosley Receiver No. 6.

This illustration shows combination of the Crosley Receiver No. 1, Audion Detector and Two-Stage Audio Frequency Amplifier, if same is preferred to the Radio Frequency Tuned Amplifier.

Later, when desired, all four units can be combined as shown in the illustration, of the Crystal Receiving set, Audion Detector, Radio Frequency Tuned Amplifier and Two-Stage Audio Frequency Amplifier, making in effect, the Crosley Model No. X, illustrated on the opposite page.

Now if the purchaser wishes to start with the Harko Senior, he can add the Radio Frequency Tuned Amplifier as illustrated, or if he prefers, he can combine the Harko Senior with the Two-Stage Audio Frequency Amplifier.

The next illustration shows the combination of all three units, which again are equivalent to the model X illustrated on the opposite page.

If the purchaser wishes to start with the Model 6, illustrated on the opposite page, he can add the Two-Stage Audio Frequency Amplifier at a later date, making a Model X. This combination is pictured below.

We believe that the unit idea has been worked out in the Crosley apparatus in a very effective manner. Efforts along this line have been made before, but never so thoroughly or completely. The idea has met with instant enthusiasm wherever shown; its popularity is already assured. The price of all units of Crosley apparatus are way below all competition. Their efficiency is unquestioned, remarkable results having been reported continually on even the simpler units. The low prices are made possible by quantity production in Crosley factories, where practically every piece and part is made, not merely assembled.

The CROSLEY MANUFACTURING CO.

Dept. R. N. 1

CINCINNATI, O.

Startling! Revolutionary!

These new developments of Powel Crosley Jr.

Crosley owns and operates Super-Power Broadcasting Station WLW

This compact, efficient receiver is an improvement of the famous Crosley one tube set, with which Leonard Weeks, of Minot, N. D., heard the MacMillan Polar expedition while the rest of America listened in vain.

The employment of the double circuit not only reduces radiation to a minimum, but radically improves selectivity. It can be tuned through local stations more readily. Under average conditions, its radius, with head phones, is 1500 miles or more.

You can use the "PUP" to check the performance of your larger set; to entertain that youngster whose curious fingers cannot resist the lure of dials and switches; to install in the maid's room, or even your office—for the air is full each day. You can take it on canoe trips, picnics, outings, and on your business journeys—for it's only half the size of a shoe box.

It is not offered as superior to the higher priced sets. There is a difference in volume of sound—but no difference in receptivity, selectivity, tonal qualities—or the enjoyment it offers.

The Crosley "Pup" is offered as a real selective, long distance receiving set. It requires one dry cell, one "B" battery block, one WD12 tube, a pair of head phones and antenna.

The CROSLEY Pup \$9.75
A Genuine Armstrong Regenerative double circuit receiver
WITHOUT ACCESSORIES

New CROSLEY Super-TRIRDYNS for 1926 3 Tubes Do the Work of 5 or 6

You have not heard the perfection of radio reception until you have listened to these two new Super-Trirdyns. In them the need for more than three tubes is eliminated by the famous Trirdyn hook-up—which combines tuned radio frequency, Armstrong regeneration and reflex amplification. There is no radiation. Distant stations come in clear and sharp on the loud speaker and can be accurately logged. Offered in solid mahogany cabinets of exquisite beauty and design, these new models are the aristocrats of radio reception at democratic prices.

The New Super-Trirdyn Regular

A beautiful cabinet job! Simple, yet rich. Oil rubbed solid mahogany. Art metal dials give distinctive finishing touch. With new Trirdyn features incorporated it is a wonderful value at the price, \$50 without accessories -

New Super-Trirdyn Special

The finest development of the famous Crosley Trirdyn—beautifully done. A magnificent cabinet of solid mahogany—simple in design. Richly finished with engraved metal dials. The case is large enough to contain all needed batteries if dry cell tubes are used. Price, without accessories - - \$60

Add 10% to All Prices West of Rocky Mountains

It is expected that no less than 500,000 present day "loud speakers" will be replaced by the Musicone in this, its first year. The Musicone reproduces the full tonal range of the human voice and music without distortion, over tones, resonance or chattering. It requires no adjustments nor additional batteries. The patented actuating unit is the secret of its faithful reproduction of all tones. Not the mere cone. Beware of imitation cone speakers. Covered by basic patents. Price

\$17.50

The MUSICONES An Improved Loud Speaker

Musicone De Luxe
The Musicone has been artistically combined with a clock case of beautiful mahogany with a grided screen. Price \$27.50

TRIRDYN

Combination De Luxe

The new Super-Trirdyn Special De Luxe Combination designed by Crosley and built by Crosley cabinet workers. It consists of a handsome solid mahogany table, the Super-Trirdyn Special (batteries self contained) and the Musicone De Luxe. Sold separately if desired. Table \$25. Musicone \$27.50. Combination - - \$112.50

Radical Improvements in Other Popular Crosley 2 and 3 Tube Models!

\$23.50

New 2 Tube—51 Special Deluxe

These low priced models represent radical improvements in selectivity, performance, appearance and value. More selective control and improved receptivity have been achieved by the use of the new worm type tickler, the new Crosley vernier plate condenser and the double circuit. Price without accessories.

New 3 Tube—52 Special Deluxe

This model like the 51 contains the new Crosley improvements and represents also as the 51 new beauty in finish and appearance. Room for dry cell batteries in both models. Price is without accessories.

\$32.50

THE CROSLEY RADIO CORPORATION

Crosley manufactures receiving sets which are licensed under Armstrong U. S. patent No. 1,113,149 and priced from \$9.75 to \$60 without accessories.

Guaranteed Satisfaction at a Reasonable Price

CROSLEY 50—A new one tube Armstrong Regenerative Receiver. We believe this to be the most efficient one tube receiver ever put on the market. Uses any standard storage battery or dry cell vacuum tube. Price \$14.50.

CROSLEY 50-A—A new two stage Audio Frequency Amplifier to match the new Model 50 Receiver. When used in connection with the Crosley Model 50 Receiver, it gives the equivalent of a three tube regenerative receiver. Price \$18.00.

CROSLEY 51—In twenty-four days this receiver became the biggest selling radio receiving set in the world and it holds that position to-day. It uses two standard storage battery or dry cell tubes, regenerative detector and one stage of audio frequency amplification. Will bring in local stations on the loud speaker at all times, and under average conditions will also bring in distant stations on the loud speaker. Price \$18.50.

CROSLEY 51-A—A new one stage Audio Frequency Amplifier to match the Model 51 Receiver. Combined they give the equivalent of a three tube receiver. Price \$14.00.

CROSLEY 52—A new three tube Armstrong Regenerative Receiver. It is unusually efficient, will provide loud speaker volume on distant stations under practically all conditions, and is in every way an ideal receiver for the home. Price \$30.00.

CROSLEY 51-P—This is our new portable set. It is the Crosley Model 51 two tube receiver mounted in a leatherette covered carrying case, battery space and all self-contained. Price \$25.00.

CROSLEY TRIRDYN 3R3—This three tube receiver gives the efficiency and volume of many five tube sets. Incorporating Radio Frequency Amplification, Regenerative Detector with one stage of Reflexed and one stage of straight Audio Frequency Amplification. Can be calibrated accurately—stations logged and returned to at will. Used on outdoor or short indoor antenna and is, we believe, the most efficient and sharpest tuning receiver on the market at any price for bringing in long distance stations. Price \$65.00.

CROSLEY TRIRDYN 3R3 SPECIAL—This receiver is exactly the same as the Trirdyn 3R3 except the solid mahogany cabinet is larger to contain "A" and "B" Batteries required when standard dry cell tubes are used. Price \$75.00.

The New CROSLEY Variable Condenser

"Better — Costs Less"

MODEL "C"

The principle of this instrument needs no introduction. Thousands of the Crosley Model "A" Condensers have been sold with uniform satisfaction. The Model "A" is conservatively rated at .0005 Mf. The new Model "C" is conservatively rated at .0012 Mf.

While the Model "A" was made with wood frame and laminated wood plates the new Model "C" has ground porcelain plates with die cast frame. It is as efficient a piece of apparatus as you could desire. For tuning C.W. and for power transmission it cannot be equalled. It is tested on one thousand volts before shipment. No body or hand capacity. Low resistance due to absence of spring contacts, copper plates, brass binding posts, etc. We call it the "sensation" of radio—"Better—Costs Less".

Every CROSLEY VARIABLE CONDENSER is GUARANTEED to give absolute satisfaction or money refunded.

The CROSLEY VARIABLE CONDENSER is now made in three styles:

Model "A" with wood frame and laminated wood plates.

Model "B" with wood plates and die cast frame.
(Both models have the same capacity—.0005.)

Model "C" as illustrated—capacity .001—porcelain plates, die cast frame, etc.

Prices as follows:

	Without knob and dial	With knob and dial	With knob and dial mounted in cabinet
Model "A"	\$1.25	\$1.75	\$2.50
Model "B"	1.75	2.25	3.00
Model "C"	2.25	2.75	3.50
